

DECORATIVE LAMINATE

Doorsan's decorative laminate collection combines aesthetics with durability. The material maintains its vibrant appearance even in high-traffic areas thanks to its exceptional resistance to wear.

Our decorative laminates enhance residential interiors and demonstrate our commitment to quality; they can be applied to our vertical flush doorsets.

If you wish to talk to a Doorsan professional regarding your project, please call us on 0113 897 0984

DECORATIVE LAMINATE

A central goal of Doorsan has always been responsible resource management. Our decorative laminates include CPL finishes made from layers of paper impregnated with thermosetting resin that is then heated and pressed, using materials that are non-toxic, resilient, and visually pleasing. In addition to providing a consistent finish, these materials completely eliminate the need for additional spray finishing costs.
